

THE GAZETTE.

THURSDAY EVENING, JULY 18.

MISCELLANEOUS.—It is noted that the beach at Long Branch is fast becoming useless for sea bathing by reason of its coarse, gravelly character, and the wash of the surf, while the beach at Atlantic City, hitherto thought somewhat dangerous from the latter cause, is now pronounced the best and least dangerous for bathing and driving, along our coast.

A new theory has been broached in regard to Asiatic cholera, which is that it is not a disease of the bowels, but of the nerves, though the former are generally not always affected. The exhaustion of paralysis of the nerve system constitutes cholera.

It is stated that Chief Justice Chase's health has suffered much from a recent attack of chills at Narragansett Pier, where he is passing the summer with his eldest daughter and her husband.

The Pope, in a letter to Cardinal Antonelli, says that there can be no reconciliation with the Italian Government.

TRANSCONTINENTAL TRAFFIC.—We stated yesterday that two hundred barrels of wheat flour from California were sold in this city on Saturday morning, this being the first sale of the kind ever officially recorded at the commercial exchange. Not very many months ago commented on our first direct importation of tea from China via the Pacific railroad. It is already becoming evident how strong an influence is to be exercised on trade by the opening of these new highways between the Atlantic and Pacific, and when, with lively competition and more rapid transit, freights become lower and transportation more commodious, the effect on general trade will be still more apparent.—*Philadelphia Record.*
